SKILLS

- **Languages:** HTML, CSS, JavaScript, C++, C, PHP
- **Frontend**: Responsive Web Design, DOM Manipulation, UI Layout, React, Tailwind CSS
- **Backend**: Express.js, MySQL, MongoDB
- **Tools & Platforms**: Git, GitHub, Vercel, Netlify, VS Code, Appwrite, Replit, AntiGravity, Postman
- **Concepts**: Game Logic, Event Handling, Modular JavaScript, Version Control

EDUCATION

- **Vivekananda Institute of Technology, GGSIPU** — *CGPA*: **8.65 (Sem 1)**
- XII (CBSE) | **St Thomas School, Indrapuram** — *87%| 2025*

ABOUT ME(PORTFOLIO)

Aspiring Software Developer with a strong foundation in full-stack web development and a passion for building interactive, user-focused applications. Proficient in React, JavaScript, and backend integration with Appwrite. Proven ability to translate complex requirements into clean, responsive code through hands-on project experience.

ACADEMIC PROJECTS

Gemini Clone React, Gemini API **[GitHub]**

- Built a fully functional Gemini AI chatbot clone using React and the Google Gemini API, featuring a conversational interface with real-time AI-generated responses and a responsive, modern UI.
- Implemented context-aware conversation handling, loading states with animated typing simulation, and sidebar history management using React Hooks (useState, useEffect) and the Gemini REST API.

Blog Management System React, Appwrite, TailwindCSS **[GitHub]**

- Developed a full-stack blog platform with user authentication, post creation, editing, and deletion using React for the frontend and Appwrite as the backend-as-a-service for database, storage, and auth.
- Implemented protected routes, real-time content updates, rich text editing, and file/image upload functionality with Appwrite Storage and React Router.

GitHub User Fetcher React, GitHub REST API **[GitHub]**

- Built a React app that fetches and displays GitHub user profiles using the GitHub REST API, showing stats like followers, repositories, and bio with a clean, responsive UI.
- Handled async API calls, loading states, and error handling for invalid usernames, demonstrating proficiency in React Hooks (useState, useEffect) and REST API integration.

POSITION OF RESPONSIBILITY

- **ACE | Technical Society, VIPS** *(2025- Present)*
  Active member of ACE, contributing to the planning and execution of technical and student engagement activities.

  Served as **Moderator** for the **Technical Day Event (Games Department)**, managing event flow, participant coordination, and audience engagement.

  Worked as **Event Supervisor** for departmental activities, ensuring smooth execution, adherence to schedules, and effective team coordination.

ACHIEVEMENTS / HOBBIES

- Currently learning Cybersecurity fundamentals, including network security, penetration testing concepts, and security best practices.
- Developed and deployed full-stack web applications using modern web technologies.
- Actively participate in technical events and workshops organized by ACE.
- Keen interest in Web Development, Cybersecurity, and AI-driven applications.
